BELGIQA FLEXIBLE VENEER

001 PRODUCT DESCRIPTION

The Belgqua flexible veneer offers the perfect solution for elegant finishing on curved surfaces and custom-made details. These veneer sheets, made from real veneer with a phenolic paper backing, are flexible and easy to work with. Together with the Belgqua veneer panels, Belgqua parquet, and Belgqua veneer planks, they form part of the 360° concept and ensure a perfect match within any interior.

001 GENERAL DESCRIPTION

Belgqua flexible veneer is made up of stained and oiled real wood veneers, laminated to a paper that is impregnated with a phenolic resin (HPL). The result is a firm but still flexible product that can be applied as easily as a HPL decorative laminate. They perfectly complement Belgqua panels or planks and are ideal for applications such as interior doors and where rounded elements are required.

Gradings Oak: Rift Mixmatch, Mixmatch

Gradings Forgotten wood species: /

Dimensions: 3050 x 1030 x 1,5 mm

Thickness: 1,5 mm veneer on phenolic paper backing

Compositions: Top layer of real wood veneer stained and UV protected with color oil, applied sequentially by means of a rolling technique and intermediate curing; a core of MDF with a high density of 700 kg/m³ (± 50 kg/m³) and a backing layer of veneer.

Protection: Removable transparent protective foil on veneer side.

Applications: Belgqua flexible veneers are best suited for interior applications and easily fit into any commercial, retail, hospitality or residential project. Common applications include home or office cabinets, kitchen fronts, dressings, fixed furniture, reception desks, hotel closets, etc. Shinnoki laminates are suitable for horizontal use but are not recommended for horizontal use in kitchen, bathroom, or similarly humid areas.

Bending radius: Maximum 150mm

Care: Normal maintenance involves no more than removing dust with a soft, dry cloth. A slightly damp cloth can also be used, but avoid using too much water. If liquids are spilled, it is recommended that they are dried immediately. Tough dirt can be removed using water and a mild cleaning agent or a detergent. Never use a cleaner based on acetone or ethyl butyl acetate without consulting Belgqua, as these substances can leave marks that cannot be removed. Wax and oil based products can also cause damage.
